1. Introduction

EduCore Pro is a comprehensive educational management system designed to streamline school operations and enhance communication between administrators, teachers, and students. This platform provides role-based access with specialized dashboards and features tailored for each user type.

🎯 Key Features:

- ✓ Role-Based Access Control
- ✓ Attendance Tracking
- ✓ Grade Management
- ✓ Class Management
- ✓ Student Directory
- ✓ Notification System
- ✓ Responsive Design
- ✓ Dark Theme Interface

2. Getting Started

System Requirements:

- Modern web browser (Chrome, Firefox, Safari, Edge)
- JavaScript enabled
- Active internet connection
- No additional software installation needed

Accessing the System:

1. Open your web browser
2. Navigate to the EduCore Pro login page (index.html)
3. Enter your credentials (email and password)
4. You will be automatically directed to your role-specific dashboard

3. Authentication & Login

Login Page Features:

- **Email Address Field:** Enter your institutional email
- **Password Field:** Enter your secure password
- **Remember Me Option:** Optional; improves convenience
- **Demo Credentials Display:** Shows available test accounts

Demo Accounts Available:

Role	Email	Password	Purpose
Super Admin	`admin@educore.com`	`admin123`	Full system access
Teacher	`teacher1@school.edu`	`teacher123`	Class management
Student	`ethan.r@school.edu`	`student123`	Academic tracking

ℹ️ **Note:** Demo accounts are for testing purposes and contain sample data.

Session Management:

- Sessions are stored locally on your device
- Use the **Logout** button to end your session
- After logout, you will be redirected to the login page
- Always logout on shared computers for security

4. Administrator Portal

Access Information:

- **URL:** `dashboard.html`
- **Required Role:** Super Admin
- **Authentication:** Role-based, automatic redirect

Dashboard Overview:

The admin dashboard displays system health metrics including:

- Total students enrolled across all classes
- Total active teachers
- Current semester classes in progress
- System statistics and notifications

Main Menu:

- **Dashboard:** System overview with KPIs
- **Students:** Complete student directory and profiles
- **Teachers:** Teacher roster and assignments
- **Classes:** Class management and schedules
- **Attendance:** System-wide attendance reports
- **Settings:** System configuration and preferences

5. Teacher Portal

Access Information:

- **URL:** `teacher-dashboard.html`
- **Required Role:** Teacher
- **Authentication:** Role-based, automatic redirect

Dashboard Overview:

Teachers see personalized content including:

- Total classes taught
- Total students across all classes
- Teaching rating
- Recent activity and submissions

Main Features:

📚 **My Classes**
Manage and view all classes you teach with details including:

- Class code and name
- Grade level and room location
- Schedule (days and times)
- Enrollment capacity visualization
- "View Class" and "Edit" action buttons

👥 **Students**
Searchable student directory featuring:

- Real-time search filtering
- Student information: Name, Grade, Email, GPA, Attendance %
- Student status (Active/Inactive)
- Quick view links to individual profiles

📝 **Assignments**
Track assignment submissions with:

- Assignment title and associated class
- Due date indicators
- Submission count and progress bars
- "View Submissions" buttons

✅ Attendance

Record and track student attendance with:

- Class selector dropdown
- Date picker (defaults to today)
- Student attendance status (Present, Late, Absent)
- Notes field for additional information
- Save functionality

> ✓ **Tip:** Use the date picker to mark attendance for past dates if needed for makeup records.

6. Student Portal

Access Information:

- **URL:** `student-dashboard.html`
- **Required Role:** Student
- **Authentication:** Role-based, automatic redirect

Dashboard Overview:

Students see their personalized academic information:

- Current attendance rate percentage
- Active classes list
- Current Grade Point Average (GPA)
- Next scheduled class and instructor

Main Features:

📚 **My Classes**
View all enrolled classes with:

- Class name and instructor name
- Grade level and room location
- Class schedule (days and times)
- Enrollment progress bar
- "View Class" action button

📊 **Grades**
Track academic performance with three sections:

Current GPA Display:

- Overall GPA shown prominently
- Color-coded for quick reference

All Assessments Table:

- Complete assignment and test history
- Grade badges (A, B, C with color coding)

- Score percentages
- Assignment dates and instructors

Performance by Subject:

- Subject averages (e.g., "Math Avg: 94%")
- Visual progress bars per subject
- Overall performance status

✅ Attendance

Monitor attendance record with:

- Overall attendance rate percentage
- Stat cards: Present count, Absent count, Late count
- Complete attendance history table
- Color-coded status (Present, Late, Absent)
- Attendance breakdown by class

🔔 Notifications

Receive and manage alerts:

- Unread notification count display
- Notification types: Info, Warning, Alert
- Timestamps for each notification
- "Mark All Read" functionality
- Complete notification history

> ✓ **Tip:** Check notifications regularly for important announcements and grade postings.

7. User Interface Guide

Color Scheme:

Navy #0a0f1e Background	**Teal #14b8a6** Student Portal	**Amber #f59e0b** Teacher Portal
Coral #f43f5e Alerts	**Violet #8b5cf6** Secondary	

UI Components:

Buttons:

- **Primary Action:** Teal/Amber buttons (role-specific)
- **Hover State:** Brightness increase on hover
- **States:** Enabled, Disabled, Loading

Cards:

- White/light background for contrast
- Shadow effects for depth
- Rounded corners for modern appearance
- Proper padding and spacing

Tables:

- Striped rows for easy reading
- Clear headers and data organization
- Responsive layout on different devices

Universal Features:

- **User Profile:** Top-right corner shows name, role, logout
- **Navigation Sidebar:** Role-specific menu with active page highlighting
- **Responsive Design:** Works on desktop, tablet, and mobile
- **Dark Theme:** Easy on eyes, professional appearance

8. Troubleshooting

Common Issues and Solutions:

❌ Login Problems

Issue: "Cannot log in, page redirects to login"

- Clear browser cookies and cache, try again
- Verify correct email format (e.g., student@school.edu)
- Confirm password is correct (case-sensitive)

Issue: "Wrong credentials message"

- Ensure email matches exactly (check for spaces)
- Use demo credentials for testing
- Contact admin if credentials are incorrect

❌ Page Display Issues

Issue: "Sidebar not showing or styling looks wrong"

- Refresh the page (Ctrl+F5 or Cmd+Shift+R)
- Clear browser cache and reload
- Try a different browser

Issue: "Data not loading or showing outdated information"

- Perform a hard refresh of the page
- Clear browser localStorage
- Log out and log back in

Browser Compatibility:

Browser	Version	Support
Chrome	Latest	✓ Fully Supported
Firefox	Latest	✓ Fully Supported
Safari	Latest	✓ Fully Supported
Edge	Latest	✓ Fully Supported

Clearing Browser Storage:

1. Open browser Developer Tools (F12)
2. Go to Application/Storage tab
3. Find "localStorage"
4. Remove entries: edu_auth, edu_students
5. Refresh the page

9. Frequently Asked Questions (FAQ)

Q: Is my data saved permanently?

A: Data is stored in your browser's local storage. Clearing browser data will remove it. In production, data would be stored in a secure database.

Q: Can I access from multiple devices?

A: Currently, each device has separate storage. Future versions will include cloud synchronization.

Q: What if I forget my password?

A: Use demo credentials for testing, or contact your system administrator.

Q: Can students edit their own grades?

A: No, only teachers and admins can modify grades. Student view is read-only for security.

Q: How often is attendance recorded?

A: Teachers record attendance for each class session. Records are timestamped automatically.

Q: Can I print reports?

A: Yes, use your browser's print function (Ctrl+P or Cmd+P) to print any page as PDF.

Q: Is the system secure?

A: This is a demo system with local storage. Production version includes SSL encryption, secure authentication, and database security.

Q: What browser should I use?

A: Any modern browser works - Chrome, Firefox, Safari, or Edge. Internet Explorer is not supported.
